**Subject:** FW: sequential sampling

Morning!

I was hoping one of you might have the sequential sampling protocol being used for East Chicago? A follow up question would be is the protocol for East Chicago the same as the protocol for Flint?

Hope all is well,

Ed

**Subject:** Re: sequential sampling

Eddy and Mike are out. I think Victoria might have something but if not, the protocol used to be on the flint response website

Hi All,

Is there a particular protocol for Region 5's sequential sampling? I'm especially interested in how many samples are taken. I was looking at the data from the East Chicago drinking water pilot study, and it looks like they took 15 or more samples at each home.
